Instructions: This questionnaire asks about problems you may have had after a very stressful experience involving actual or threatened death, serious injury, or sexual violence. It could be something that happened to you directly, something you witnessed, or something you learned happened to a close family member or close friend. Some examples are a serious accident; fire; disaster such as a hurricane, tornado, or earthquake; physical or sexual attack or abuse; war; homicide; or suicide. Below is a list of problems that people sometimes have in response to a very stressful experience. Keeping your worst event in mind, please read each problem carefully and then click/mark one of the boxes to the right to indicate how much you have been bothered by that problem in the past month. Open this form in Adobe, and as you click the boxes the form auto-calculates the total. You can send this file with your check marks to your physician. You don't have to scan it.
